

# Project Type: Healthcare

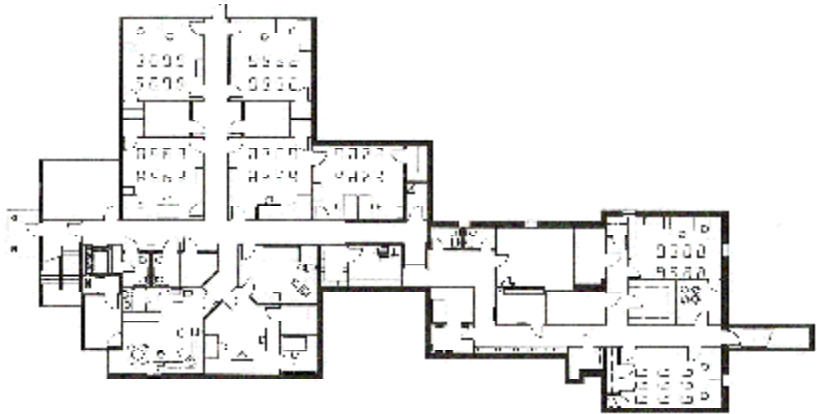

Renovation/New Construction

**Project:** The Whitney Academy  
**Client:** George Harmon  
**Location:** 85 Dr. Braley Road  
East Freetown, MA  
**Size:** 17,300 sq.ft Addition/Renovations

## Project Description:

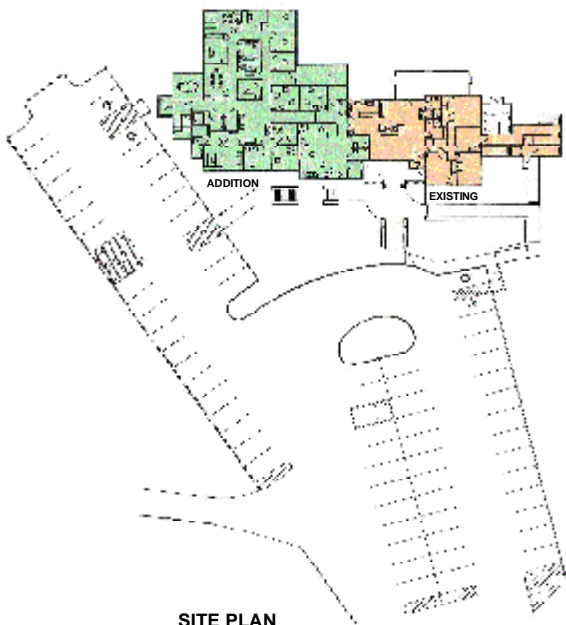

Project consisted of a two story addition and renovation to an existing year-round residential treatment center for young men, ages 10-22, who present a wide spectrum of behavior problems. The design included new architectural entry features, modification of the existing two story building, two story addition, landscaping, and exterior lighting improvements. The program consisted of the reconfiguration, renovation and space planning of existing and new administrative & clinical offices, classrooms, time-out rooms, kitchen, dining, group therapy, reception, conference, medical offices, service and mechanical spaces.
